

FURYA
OTOMOTİV

ABOUT US

Furya Automotive was established in 2016 with entirely own capital, driven by the 13 years of experience gained by our founder, Hüseyin KAYAALP, in the Konya industrial sector and his ideal of contributing to production. After completing his primary and secondary education, KAYAALP entered the workforce as a lathe operator. He combined the knowledge he gained in the field with his entrepreneurial vision to bring the Furya Otomotiv brand to life.

Since our establishment, we have been providing our customers with value-added products and solutions guided by the principles of quality, trust and sustainability. We adopt an environmentally conscious, people-centred and ethically sound approach at every stage of production, aiming to achieve lasting superiority in our industry.

OUR SERVICES

Custom Manufacturing & Product Development

We produce solutions that are tailored to your needs and generate sales. We design the dimensions, materials and packaging according to your scenario; we quickly bring the product to market with a rapid prototyping approved sample series production flow.

Fast Supply & Scheduled Stock

Remove 'Out of stock' from the equation. With demand forecasting, planned inventory, VMI/Kanban and barcoded packaging, your SKUs are always ready for dispatch. Convert opportunities into sales instantly with express delivery and same-day shipping.

Contract Manufacturing

Private Label/Co-Branding packaging, catalogues/samples, e-commerce content and launch-bundle concepts prepare your products for sale, boosting shelf impact, channel visibility and conversion in a single package.
